Dies ist ein kleiner Funktionstest für sogenannte Workflows. Man kann darin z.B. auf eine Stelle innerhalb des RDA-Toolkits verlinken, z.B. auf einen RDA-Paragrafen [2.4.1.5 RDA](#)

Oder man verlinkt auf externe Dokumente http://verbundswop.bsz-bw.de/volltexte/2010/171/pdf/kathb_PNDimSWB.pdf

Und es sind sicher auch viele mehr oder weniger sinnvolle **Spieleereien** möglich!

1XX, 7XX: Record the Relationship to a Person, Family, or Corporate Body Associated with the Book

If the book's preferred source of information identifies a single **person** (such as Thomas Friedman or Kermit the Frog) as the creator of the text, record in 100 the **authorized access point** for that creator (RDA 18.3 RDA, RDA 18.4 RDA, RDA 19.2 RDA.)

If persons, **families**, or **corporate bodies** related to the book are more complicated than that (for example, there are multiple creators, or a corporate body may be the creator), apply the separate workflow *LC Staff: Construct an Authorized Access Point Representing a Work* [name tentative, not yet drafted] to determine which authorized access point (if any) to record in 1XX.
